Lüks Kompozit Seri *Luxury Composite Serie*

A full-page background image showing a person in silhouette climbing a vertical rock face. The climber is positioned in the upper left quadrant, reaching up with one arm. The rock face is textured and occupies the left side of the frame. The background is a dramatic sky at sunset or sunrise, with warm orange and yellow light filtering through clouds. In the lower part of the image, dark silhouettes of mountains are visible against the bright horizon. A red banner with white text is overlaid in the center.

Aksesuarlar Accessories

*Türkiye'de kullanılan kapı kilit sistemlerine uygundur (Barel sistemi) / Suitable for lock system used in Turkey. *Manuel (anahtarla) kontrol / Manuel control (with keys)
* Uzaktan kumanda ile kontrol / Remote Control * Parmak izi ile kontrol / Fingerprint Control * Uzun pill ömrü (8000 açma-kapama / Long life battery (8000 open lock)
* Acil durumlarda kilit sisteminin çalışmasını zorlaştırmayan akıllı tasarım / safe design simple flying to open door in case of emergency * Tek tuşla kapı kilitleme / Locking the door only with a button

Parmak izi Tanıma

Kapının dış yüzüne enjekte olarak yerleştirilmiş parmak izi okuma modülü, 500 DPI optik okuyucu sensörler yoluyla yaklaşık 3 tane yetkili (master) parmak olmak üzere toplam 1900 parmak izini hafızasında tutabilir. Kullandığı parmak izi değerlendirme algoritmasıyla dünya çapında ödül almıştır. Yeni Parmak izi öğrenme ve parmak izi tanıma işlemlerini 1 saniyede yapabilmesiyle öne çıkan modül, çocuk parmakları, yaşlı parmakları ve bayan parmaklarında yüksek performans gösterir.

Aynı zamanda Kapıya içten ve dışardan girilmiyacak şekilde monte edilen alarm ile size yüksek güvenlik sunar.

Uzaktan Kumanda

Kullanıcılar, sistemi parmak izinin yanında uzaktan kumanda ile de kontrol edilebilir. Telekomünikasyon Kurumu onaylı 433.92 MHz'de çalışan uzaktan kumandalar, değişken (rolling) kod teknolojisi ile üretiliyor. Bu teknoloji, kumandanın her kullanıldığında farklı bir kod göndermesini sağlıyor. Bu sayede kumandanın gönderdiği kod kütü niyetli kişilerce çalınsa bile aynı kodla cihaz bir daha çalışmayacağı için çalıncı kod hiç bir işe yaramıyor.

Uzaktan kumandanın butonlarına yanlışlıkla basılması durumunda dalinenin kapısının açılmaması için uzaktan kumandanın çalışması üzerinde bulunan aktivasyon butonuna basma farına bağlanıyor durumda.

Next to your door, the only thing for you to do is either to show your finger to fingerprint system or to use remote control; your door will be open in few seconds High Security 500 DPI optic sensors are used on our Biometric systems, This system is awarded system for its fastest and errorless reading feature.

As well as finger print system, you can control your door with your remote control. Besides semi automatic system can help you to open or lock your door just by turning your keys fastly. Emergencies like fire or lock of battery don't prevent you from opening or locking door door manually. It is comparable with lock systems. On the other hand, it gives you high security with its hidden alarm system.

Fingerprint Denfification

Fingerprint module built in outside of the door operates with 500 DPI optical sensors. It keeps 1900 different fingerprint (3 authorized, master) in memory. It has worldwide reward for its fingerprint algorithm. Sanding out with its easy identification of new fingerprints in 1 second, this lock system has high performance in recording child, old person and ladies' fingers

Remote Control

Users can operate the door with remote control system in addition to fingerprint system. 433.92 MHz remote controls, certified by telecommunication association, working on rolling code technology. This technology enable remote control to send different signal code in each usage. Thanks to this system, even if this code is stolen by malicious people, they can't use remote control this system, even if this code is stolen by malicious people, they can not use remote control since this stolen code will not operate the door. In order to prevent usagers by mistake, remote controls are set conditional to pushing activation button on the door.

YALE MONO BLOK
(Klasik Rusluk Mono Blok)

Kilit Sistemi (Lock systems)	: Monoblok, Şifreli Barel (Def veya HOK)
Sac Kalınlığı (Metal Thickness)	: 1.2mm ÇKP
Kanat Geniliği (Frame Width)	: 5cm.
MDF	: 10mm Silindirik MDF
Kanat İçi (Frame Inside)	: MDF Silindirik
Boya (Color)	: 210 C° da Fırınli Elektrozstatik
Toz Boya	
Rozet Tipi (Rosette)	: Yalı Yaprak Rozet
Aksesuar (Accessories)	: Alüminyum Sakat Rank
Aksesuarlar (Accessories)	: Akyol, Aynalı Kapı Kolu, Dürbün, Emniyet Pimi, Kapı Contası
İsteğe Bağlı (Optional)	: Kancalı Kilit Sistemi, Topuz Kol, Piring Aksesuar, San Rank Aksesuar
